

Limited Dental Warranty for Veneers

We will warranty veneers for a five year period as long as the full fee is paid. Teeth that are restored with veneers at a discounted rate for marketing promotions and website use are warranted for a four year period.

This warranty will include repairs or the replacement of veneers due to normal use. Veneers that break due to accidents from trauma, or habits such as chewing ice and jaw breakers, are not warranted.

This warranty is in effect as long as you maintain your recommended cleaning appointments and examination every six months. However, we do recommend a professional cleaning every three months to prevent decay and maintain healthy gum tissue around your veneers.

The primary key to your long-term success is spending time on your home care: brushing, flossing, using fluoride, and other prescribed products. Also, please keep in mind that acidic drinks, such as soda, will deteriorate your dental restorations and your natural teeth at a faster rate.
